TecPodium
Presenter
Height Adjustable Lectern

Presentation Solution Adjusted for You!

Different presenters have different needs.
That's why we invented TecPodium Presenter!

Sporting a sleek, modern design, TecPodium Presenter is a sophisticated compact lectern with multimedia capabilities built-in for smooth presentations.

TecPodium Presenter is a fully ADA compliant and comes equipped with electronically controlled lift for height adjustment. A single button to press for an up / down motion, adjusting the lectern height according to physical requirements of every lecturer.

The multi-touch screen offers extended educational tools for the modern classroom and training environments and fully supports inking features, allowing direct, on the fly annotation capabilities.

Interfacing easily with any projector or projection system, its compact design easily accommodates classrooms, conference centers, lecture halls and boardrooms.

Voted as "Best Classroom Technology Product"!

Tecom is a leading manufacturer of classroom multi-media podiums and AV lecterns and can accommodate your different needs of any room in your facility.

TecPodium Presenter is an "out-of-the-box" solution, easy to install and use.

TecPodium Lecterns have been installed worldwide in some of the best schools and universities, colleges, corporate, military, civic training centers and are up and running for over 20 years while receiving great reviews from instructors and student's alike for ease of use and remarkable durability.

Reliability, ease of use and effectiveness has made TecPodium a desirable presentation solution.
